Permanent Employment, Full Time or Part Time (f/m/d)
IT Administrator

Dresden / remote, from May 2022

You call IT home and securely administered networks and infrastructure are an inner need for you? Are you very familiar with the administration of Windows or Linux? Users are not a necessary evil for you but an important part of your team and your environment? IT security is the basis of everything for you and the administration and backup of data is an essential part of your know-how? Do you know your way around with cloud-based systems such as AWS / GCP or Azure, or do you want to grow in this area?
If you can predominantly answer "yes" here, get to know our team and become active with us as an IT administrator!

Our Mission

We make the wear of the most expensive vehicle wear part, the battery, transparent. By unlocking valuable information in the field data that continuously accumulates during daily system operation, we enable our customers to develop more economical battery systems, reduce operational risks and establish after-use concepts (2nd-use).

We are an experienced team of engineers, battery experts and software developers and, as a spin-off of the Fraunhofer Institute for Transportation and Infrastructure Systems IVI, we work with state-of-the-art technology for a higher goal - more on www.volytica.com

Your tasks

- Monitoring and maintaining office networks
- Installing and configuring new hardware and software
- Implementing security protocols and procedures to prevent potential threats
- Creating user accounts and performing access control
- Performing diagnostic tests and debugging procedures to optimize computer systems
- Documenting processes, as well as backing up and archiving data
- Developing data retrieval and recovery procedures
- Designing and implementing efficient end-user feedback and error reporting systems
- Providing internal IT support
- Keeping up to date with advancements and best practices in IT administration

Your profile

- Degree in computer science, business informatics or equivalent practical experience
- Experience in commissioning, administration and remote maintenance of Windows / Linux
- Practical experience in network administration
- Successful administration of IT infrastructures on-prem / hybrid / cloud based
- Very good understanding of IT-security and its practical implementation
- Quick comprehension and structured thinking
- High quality standards and reliability
- Very good German and/or English skills

Why you should join

- At vdx you are part of a dynamic and ambitious team of juniors and seniors that works together on the technology for tomorrow
- Modern cloud technologies, electromobility and lithium-ion batteries, IOT, IAC and Industry 4.0: these are no marketing platitudes for us
- Your strengths and interests determine your development potential - we place great value on individual personality and skill development
- In the center of Dresden we offer you a workplace with a pleasant, modern atmosphere - and we subsidize your mobility!
- Flexible work scheduling - we take your individual situation into consideration and make it possible to work in a family-friendly manner. This includes optional home office and remote work
